

- THE DYNAMIC DIGEST - UPDATE 192

The overwhelming response to our Insight launch has been exciting and has inspired further product improvement. Your feedback and comments are highly-valued, as our services are geared at accommodating the corporate and functional needs of our clients.

Thank you for affording us the opportunity of providing you with the benefits of Insight. The Data Dynamics Team is confident that you will continue to be satisfied with your investment.

Disc Storage

It is essential that the initial Insight Installation Disc be retained in conjunction with only the latest update disc. Once a new update disc is received, any previous update discs are deemed redundant and should be discarded.

The Insight installation casing accommodates two discs, specifically for storing the original installation disc and the latest update disc together. This set is adequate for auditing purposes, as update discs are inclusive of all preceding updates.

Please visit our newly-renovated website, www.ddyn.com, for the latest product developments. The website also includes additional technical support and "how-to's" regarding the Insight Document Browser.

UPDATES TO NOTE

UPCOMING EVENTS IN MARCH 2010

- 20th International Earth Day
- 20th World Head Injury Awareness Day
- 21st Human Rights Day
- 22nd World Water Day

DID YOU KNOW?

The 20th of March 2010 is World Head Injury Awareness Day. An estimate of 89 000 cases of new traumatic brain injuries are reported annually in South Africa. (www.kznhealth.gov.za/headinjury.htm).

Despite employers often purchasing necessary Personal Protective Equipment (PPE), employees still incur injuries due to PPE either being used incorrectly, or not used at all.

To promote a safe workplace, SmartBooks, a division of Data Dynamics, has put together a set of 6x A2 Laminated Posters: Bright and Bold, they serve as an effective and constant visual reminder to always utilise PPE correctly.

INSIGHT TIP OF THE MONTH

Insight Licensing

A new electronic licensing applies to all document purchases within our libraries to ensure compliance with our product license agreement. The e-license technology is a form of control to indicate the balance of the license contract duration of the documents in the Document Library. Software activation is automatic upon installation and clients will be notified of their impending expiry 30 days prior to expiry date. Notification will be displayed within the Insight document browser as a reminder to clients to ensure that their subscription contracts are renewed timeously. Once the expiry date of the subscription period is reached, clients will be unable to gain access to their legislation.

Furthermore, single or multi-user licenses are recognised. Seat-control to the number of copies of a document within the library may be upgraded in a multi-user license, with minimum effort. The license type has no effect on the functionality of the software.

The verification processes do not collect, transmit, or use any information about the identity of users.

Please consult your Insight Help File for more information.

Should you require any assistance; please do not hesitate to contact the Team at Data Dynamics:
