

- THE DYNAMIC DIGEST - UPDATE 195

Did you know that there are approximately 80 acts with Regulations under these Acts, as well as Provincial Ordinances & By-laws controlling the environment? With constantly changing legislation and increases in fines, it is sometimes difficult to be sure you're remaining compliant. A consequence of non-compliance could be the risk of substantial financial loss, due to cleanup processes, loss of asset value and penalties. To minimise risk, companies should be aware at all times of, and in possession of, the relevant environmental legislation that can have an economical or operational impact on their business.

Data Dynamics' **ELL - the Environmental Legislation Library**, comprises of National & Provincial Acts and Ordinances, Local By-laws, International Conventions, Green & White Papers and current Bills & Drafts. ELL offers you a simple and easy way to stay up to date, giving you the confidence that you won't miss a vital piece of law that affects your organisation. Give us a call at 031-2628240 or visit our website at www.ddyn.com to find out more.

This month Data Dynamics streamlines our National, Provincial & Local updates for your convenience. The ELL Provincial & Local Library will continue to be updated bi-annually in April & October but will be combined with the National update on one disc.

Disc Storage

We wish to remind you that it is essential that the initial Insight Installation Disc be retained in conjunction with only the latest update disc. Once a new update disc is received, any previous update discs are deemed redundant and should be discarded.

The Insight installation casing accommodates two discs, specifically for storing the original installation disc and the latest update disc together. This set is adequate for auditing purposes, as update discs are inclusive of all preceding updates.

Please visit our newly-renovated website, www.ddyn.com, for the latest product developments. The website also includes additional technical support and "how-to's" regarding the Insight Document Browser.

We have incorporated our Environmental Legislation Update Newsletter into our National Legislation Newsletter for your convenience.

UPCOMING EVENTS IN JUNE 2010

- 05th World Environment Day
- 11th FIFA World Cup
- 16th Youth Day

NEW AIR QUALITY ACT IN FULL EFFECT

01st April 2010 heralded a significant milestone for air quality management in South Africa, when the new National Air Quality Act came into full effect and the old Atmospheric Pollution Prevention Act of 1965 was repealed.

The ultimate outcome of the efficient and effective implementation of the Air Quality Act is of course ambient air that is not harmful to the health and well being of all across the nation.

01st April 2010 also marked the date when the new list of activities which require Atmospheric Emissions Licenses to operate, were promulgated.

Contact our Sales Team to add this vital Act to your library.

INSIGHT TIP Library Information and Version Reporting

Insight has a reporting system that indicates the version number of documents in the library. This allows for tracking of updates which is particularly useful for Auditing purposes. To view this report, click on "Version Report" and "Library Information" located on the Toolbars of the PC/LAN and Intranet versions, respectively. This report may be printed by clicking on the Print button.

Please consult your Insight Help File for more information. Should you require any assistance; please do not hesitate to contact us at:

Tel: (031) 262 8240
Fax: (031) 262 8158
