

- THE DYNAMIC DIGEST - UPDATE 196

INSIGHT UPDATE REGISTER

This month, Data Dynamics is pleased to announce the launch of our new Update Register tool.

Developed in response to increased concerns from our customers about keeping up to date with current legislation, the INSIGHT Update Register helps you to track and access legislative updates easier than ever before.

INSIGHT saves you the time-consuming task of reading through endless literature and locating the legislation changes that are relevant to you. Completely electronic – you can access our entire database of updates, or view only those which are applicable to your specific legal library. INSIGHT is ideal for use with an environmental management system and provides you with a simple tool to create a bespoke legal register to help demonstrate your compliance to regulatory requirements.

The new Update Register is included in our latest browser (version 1.0.4) which is included with Update 196 and can be downloaded from our website using the INSIGHT Update Wizard. Please read the "Software and Application Update" procedure located in the Insight Help for information on how to perform the update.

Read our **INSIGHT Tip** to find out more about the Update Register.

DISC STORAGE

We wish to remind you that it is essential that the initial Insight Installation Disc be retained in conjunction with only the latest update disc. Once a new update disc is received, any previous update discs are deemed redundant and should be discarded.

The Insight installation casing accommodates two discs, specifically for storing the original installation disc and the latest update disc together. This set is adequate for auditing purposes, as update discs are inclusive of all preceding updates.

Please visit our website, www.ddyn.com, for the latest product developments. The website also includes additional technical support and "how-to's" regarding the Insight Document Browser.

UPCOMING EVENTS IN JULY 2010

- 11th FIFA World Cup
- 11th World Population Day
- 18th Mandela Day

INSIGHT TIP Update Register

- Provides detailed views of updates historically entered into the National, Provincial & Local Legislation Libraries.
- Provides access to the update by a referenced field, usually the Notice number as published in the Government Gazette.
- Users require access to the internet to recall the update information from the Data Dynamics web server.
- If a recent update selected from the register is not present, users may then download the update from the Data Dynamics web server or install from the update CD.

To access the Update Register, click on the new button located on the program toolbar:

Intranet Version

Standalone & Network Versions
