ENVIRONMENTAL PROVINCIAL & LOCAL GOVERNMENT LAW

Data Dynamics' **ELL** (Environmental Legislation Library) offers access to a selection of environmentally-relevant Provincial Laws and Municipal By-laws in force in South Africa.

Published within the Insight Document Browser, **ELL** provides an integrated depository of National, Provincial & Local Government law. A selection of International Conventions, Protocols, Green & White Papers and Bills & Drafts are also included for convenience.

Users can choose the provinces to which they wish to subscribe. Legislation is published in consolidated format with references to amendments clearly displayed in the text. Information is easily searchable, making access to this previously difficult-to-access information a simple process.

Updates are applied as soon as possible after official changes occur. These may be accessed via the Insight Download Manager or applied with the bi-annual update discs which are released in May and November.
