### 3. KEY MEASUREMENT PRINCIPLES

3.1 The Enterprise and Supplier Development consist of,

- 3.1.1 Preferential Procurement;
- 3.1.2 Enterprise Development; **[and]**
- 3.1.3 Supplier Development, or
- 3.1.4 Transformation Fund.

3.2 Enterprise Development, **[and]** Supplier Development or Transformation Fund Contributions will be recognised as a percentage of

annual Net Profit After Tax (NPAT).

3.2.1 The Net Profit After Tax (NPAT) or average target applies unless:

3.2.1.1 the company does not make a profit last year or on average over the last five years

3.2.1.2 the net profit margin is less than a quarter of the norm in the industry.

3.2.1.3 If the Turnover is to be used, the target will be set at:

3.2.1.3.1 1% (ED) or 2% (SD) x Indicative Profit Margin (NPAT/Turnover) x Turnover.

3.2.2 A Measured Entity has a choice of compliance with the 3% NPAT through implementation of both Enterprise Development (2.2) and Supplier Development (2.3) indicators; or by only contributing to the Transformation Fund using NPAT.

3.2.3 A Measured Entity has a choice of compliance with either Enterprise Development and Supplier Development, or Transformation Fund.

3.2.4 Points scoring under 3.2.3 above will be in proportion to the spending for each of the indicators.

### **3.3 SUB-MINIMUM AND DISCOUNTING PRINCIPLE**

3.3.1 A Measured Entity must achieve a minimum of 40% of each of the total weighting points as set out under 2.1, 2.2, 2.3, or 2.4 of the scorecard.

3.3.2 Non-compliance to one or more of the threshold targets as per paragraph 3.1 will result in the overall achieved B-BBEE status level being discounted in accordance with paragraph 3.4 in statement 000.

3.3.3 An Empowering Supplier within a context of B-BBEE is a B-BBEE compliant entity, which is a good citizen South African entity, comply with all regulatory requirements of the country and should meet at least three if it is a large enterprise or one if it is a QSE of the following criteria:

- (a) At least 25% of cost of sales excluding labour cost and depreciation must be procured from local producers or local supplier in SA, for service industry labour cost are included but capped to 15%.
- (b) Job creation – 50% of jobs created are for Black people provided that the number of Black employees since the immediate prior verified B-BBEE Measurement is maintained.
- (c) At least 25% transformation of raw material/beneficiation which include local manufacturing, production and/or assembly, and/or packaging.
- (d) Skills transfer - at least spend 12 days per annum of productivity deployed in assisting Black EMEs and QSEs beneficiaries to increase their operation or financial capacity.

3.3.4 Exempted Micro Enterprises and Start-Ups are automatically recognised as Empowering Suppliers.

3.4 The Weighting points in the Enterprise and Supplier Development scorecard represent the maximum number of points possible for each of the criteria.

3.5 If a Measured Entity procures goods and services from a supplier that is:

- 3.5.1 A recipient of supplier development contributions from a Measured Entity under Code series 400 which has a minimum 3-year contract with the Measured Entity, the recognisable B-BBEE Procurement Spend that can be attributed to that Supplier is multiplied by a factor of 1.2;
- 3.5.2 A Black Owned QSE or EME which is not a supplier development beneficiary but that has a minimum 3-year contract with the Measured Entity, the recognizable B-BBEE Procurement Spend that can be attributed to that Supplier is multiplied by a factor of 1.2;
- 3.5.3 A supplier to the Measured Entity that is at least 51% Black Owned

or at least 51% Black Woman Owned utilizing the Flow Through Principle, the recognizable B-BBEE Procurement Spend that can be attributed to that Supplier is multiplied by a factor of 1.2.

- 3.6. Procurement of goods and services and any other activities that fall under 2.1 will not qualify for scoring under 2.2 and 2.3 and vice versa.
- 3.7. Beneficiaries of Supplier Development or Enterprise Development are EMEs or QSEs which are at least 51% black owned or at least 51% Black Women Owned utilizing the **[f] Flow [t] Through [p] Principle**. However, in terms of Generic Entities, this is based on the provision that at the first instance of receiving assistance from the Measured Entity, it was identified that such suppliers were EMEs or QSEs. This recognition to Generic Entities will only be allowed for 5 years from the first time of receiving assistance from the Measured Entity.
- 3.8. A Supplier Development Beneficiary is a part of the Measured Entity's supply chain, whereas an Enterprise Development Beneficiary is not.
- 3.9. B-BBEE Procurement Spend from Generic Entity Suppliers, which are at least 51% Black Owned or at least 51% Black Women Owned utilizing the **[f] Flow [t] Through [p] Principle** can be recognized under Point Indicator 2.1.2 and 2.1.3 of the Enterprise and Supplier Development Scorecard. However, this is based on the provision that at the first instance of procuring goods and services, it was identified that such suppliers were EMEs or QSEs. This recognition for Generic Entities under Point Indicator 2.1.2 and 2.1.3 will only be allowed for 5 years from the first time of procuring goods and services from such suppliers.

#### **4. GENERAL PRINCIPLES**

- 4.1. To strengthen local procurement in order to help build South Africa's industrial base in critical sectors of production and value adding manufacturing, which are largely labour-intensive industries.
- 4.2. To increase local procurement through capacity building achieved

by incentivising appropriate local supplier development programmes by businesses supplying imported goods and services.

- 4.3 The imports provisions do not apply to the designated sectors and products for local production, as and when published.
- 4.4 To actively support procurement from Black Owned QSEs and EMEs by identifying opportunities to increase procurement from local suppliers in order to support employment creation.
- 4.5 To support procurement from Black Owned and **[b]** Black [w] Women Owned businesses in order to increase the participation of these businesses in the mainstream economy.
- 4.6 To promote the use of Black Owned professional service providers and entrepreneurs as suppliers.
- 4.7 Measured Entities receive recognition for any Enterprise Development and Supplier Development Contributions that are quantifiable as a monetary value using a Standard Valuation Method.
- 4.8 Measured Entities are encouraged to align their Enterprise Development and Supplier Development initiatives with the designated sectors of the government's localisation and value-adding programmes.
- 4.9 Measured Entities are encouraged to align their enterprise development and supplier development initiatives with their supply chain requirements, thereby linking Enterprise Development and Supplier Development with Preferential Procurement.
- 4.10 Qualifying Enterprise Development and Supplier Development Contributions of any Measured Entity are recognisable on an annual basis.

4.11 Contributions, programmes and/or initiatives that span over multiple years, the total contribution amount must be divided by the number of years, and the average per year is then to be utilised for the annual contribution.

4.12 Measured Entities are encouraged to develop and implement an Enterprise Development plan and Supplier Development plan for Qualifying Beneficiaries. The plan should include:

4.12.1 Clear objectives

4.12.2 Priority interventions

4.12.3 Key performance indicators; and

4.12.4 A concise implementation plan with clearly articulated milestones.

4.13 Measured Entities will not get recognition for the same activities undertaken under 2.2 and 2.3; they will only get recognition for one of the two, i.e., 2.2 or 2.3

4.14 No portion of the value of any Qualifying Enterprise Development and Supplier Development Contribution that is payable to the beneficiary after the date of measurement can form part of any calculation under this statement.

4.15 Measured Entities who selects to comply with Enterprise Development and Supplier Development as well as those partnering with the Transformation Fund are required to submit a needs analysis, performance metric (with outputs and outcomes such as turnover growth, job growth, increased access to local and international markets, increase in profitability, greater innovation), and an annual Monitoring and Evaluation report (to B-BBEE authorities, inclusive of the Verification Agency) to verify their contributions and impact to the beneficiaries to ensure compliance with the ESD objectives.

## **5      TOTAL MEASURED PROCUREMENT SPEND**

The following procurement is measurable within Total Measured Procurement Spend:

medical insurer by a Measured Entity for its employees, excluding any portions of such payments which are a contribution to a capital investment of the employee. The scheme or insurer must issue a certificate dividing payments between the capital investment portion and the balance to establish the amount that is measurable within Total Measured Procurement Spend;

5.9 Trade commission's: any commission or similar payments payable by a Measured Entity to any other person pursuant to the business or trade of the Measured Entity;

5.10 Empowerment related expenditure: all goods and services procured in carrying out B-BBEE. 5.11 Imports: all goods and services that are imported or procured from a non-South African source; and
