Explanatory Memorandum

1. Policy Review

This paragraph will be distilled from the Options paper and related materials

2. Purpose of Bill

The purpose of the Bill, as set out in section 3 is to promote the economic growth and welfare of South Africa by promoting an effective, efficient and productive transport sector, and toward that end, to establish two parallel, independent, but integrated regulatory agencies.

3. Summary of Bill

3.1 Integration with current laws

The Bill proposes to work within the existing regulatory framework, with some adjustment.

The Bill will repeal certain provisions of selected Acts, primarily to bring an end to specialized sector regulators..

Beyond that, the Bill leaves substantive law governing specific sectors in place, but this Bill will over-ride those laws in case of any legislative procedural conflicts.

3.2 Scope of the Bill

The Bill establishes a framework for the economic regulation of transport and the defines the initial scope of the Bill, in terms of the specific entities to be regulated. The Minister is authorized to bring other specific private or public entities, markets, facilities or services within the scope of the Bill (or grant specific exemptions), on a case by case basis, should the conditions outlined in section 4 of the Bill apply.

The Bill describes the regulatory instruments and procedures which are to be employed by the Regulator. This includes the ability of the Regulator to determine price controls and related service standards, collect regulatory and industry information, and to resolve disputes affecting all regulated entities.

7. CO-OPERATIVE GOVERNANCE

The Bill recognizes that transport regulation implicitly affects matters that fall under the functional area of concurrent jurisdiction between national, provincial and municipal government in terms of Schedule 4 to the Constitution. To this end, the Bill provides for the Minister to consult the relevant Members of the Provincial Executive Councils, and municipalities, with respect to the:

- (a) co-ordination and harmonization of the functions of the Regulatory Authorities and the provincial and municipal authorities; and
- (b) facilitation of settlement of any dispute between the Regulator and any provincial or municipal authority;

8. REGULATORY INSTITUTIONS

The Bill proposes the establishment of the Transport Economic Regulator, and the Transport Economic Council, each of which will be established as a state organ responsible to the Minister.

The Regulator will be the primary technical, administrative and enforcement regulator under the Act, responsible for carrying out education, research, price control approval, investigation of complaints and enforcement of the Act.

The Council will be the primary adjudicative entity, reviewing decisions of the Regulator when an affected party applies for such a review; and reviewing the decisions of regulated entities when a user of a facility or service provided or licensed by a regulated entity considers that its rights have been adversely affected.

9. ENFORCEMENT OF ACT

The Bill gives the Regulator power to:

Investigate complaints and monitor regulated sectors, services and facilities for compliance.

Issue a compliance notice to a person or association whom the Regulator believes has engaged in prohibited conduct. It is an offence to fail to comply with an compliance order.

Refer alleged offences in terms of the Act to the National Prosecuting Authority.

The Courts are responsible for the adjudication of all matters relating to alleged offences in terms of the Act, interpretation of law, issuing of declaratory orders and consent orders.

The Bill makes provision for criminal and administrative sanctions. Criminal sanctions relate to offences and the administrative sanction of a directed price control reduction relates to prohibited conduct by a regulated entity.

11. OTHER DEPARTMENTS AND BODIES CONSULTED

When the Bill is finalized, a list should appear here of any who have been consulted

12. CONSTITUTIONAL IMPLICATIONS

Given the fact that the national and provincial governments have concurrent legislative competence in respect of some aspects of transportation, consultation should be considered with provinces to ensure that there is broad agreement on the Bill and that any potential constitutional concerns have been dealt with.

13. COMMUNICATION IMPLICATIONS

The Bill will be published in the *Gazette* for public comment and further consultations will be held with other government departments, sector regulators, regulated entities, industry associations, consumer groups, professional associations, trade unions and any other interested persons.

14. PARLIAMENTARY PROCEDURE

The Department is of the opinion that this Bill must be dealt with in accordance with the procedure prescribed by section 76 of the Constitution since it falls within a functional area listed in Schedule 4 to the Constitution.
